What's a Guarantee?

Our idea of a guarantee is that the manufacturer who gives one which hasn't any tags and loopholes—believes in his product.

So much so that he stands ready to make good any loss suffered by the purchaser through defective material or workmanship.

It's mainly because of the guarantee that goes with them that we are selling and recommending Ames Holden "Auto-Shoes."

Of course, we know they give the cheapest mileage too—that they are dependable tires for any make of car, anywhere. But it's the guarantee that we talk about most. It's the straight and clean-cut, without time or mileage limits. It shifts our responsibility on to the manufacturer and he lives up to every letter of it. Come in and let us tell you about the guarantee that goes with

Lorne Proudfoot Is Chosen

By Acadia U.F.A.

Seven Names Come Before the Convention

Out of seven aspirants, Lorne Proudfoot was chosen as the U. F. A. candidate for the Acadia Constituency in the coming provincial election on Wednesday at a convention held in Oyen. Mr. Proudfoot is a resident of this district of many years standing, and a man of good business ability. He has been a great worker in the U.F.A., and was president of the Acadia U.F.A. district.

CHINOOK SCHOOL EXAMS.

The following is a list of the promotions in the Chinook consolidated school for the year ending June 24, 1921.

Room 1.

From Grade 1B to 1A

Alice Hohlen.

Celestine Dressel.

Mary Hewitt.

John Houghton.

Alan Dunn.

Marjorie Lee.

Betty Milligan.

Gladys Wright.

Margaret McLean.

Jean McIntosh.

From Grade 1A to Grade II.

Elsie Smith.

Jessie Wilson.

Lois Stephenson.

Eileen Featherstone.

Jack Hewitt.

Beulah Venard.

Velma Bennett.

Norman O'Malley.

Harry Varcoe.

Robert Featherstone.

Passed from Grade V. to Grade VI.

Marvel Milligan.

Douglas Smith.

Ellard Grant.

John Wilson.

Verton Maris.

Nellie Short.

Jack Varcoe.

May Peterson.

Hermna Dressel.

Ethel Radford.

John Johnston.

Charlotte Flater.

Lily Howton.

Grade IV. to Grade V.

Jacob Engler.

Lester Dressel.

Grade III. to Grade IV.

Leslie Cliphsham.

Lily Hohlen.

Mary Cliphsham.

Annie Cliphsham.

Thompson McIntosh.

Richie Millar.

Bert Pettigrew.

Alfred DeMan.

Mildred Milligan.

Jean Knight.

Alice Bennett.

Madeline Otto.

Bessie Noble.

Verna Dressel.

(Continued on page eight)

Mrs. E. E. Noble and her three children left this morning for Oroville, Wash.

Personalities

Remember the Fair, Aug. 4-5. No entry fee.

Mr. C. W. Spicer left Monday for Elrose, Sask., en route for the States.

Mr. N. Court, of the Langford district, had a rib broken last week when he was thrown from a gang plow.

Mr. and Mrs. D. V. Boyer left Friday for Artland, Sask., where they will visit their daughter.

Rev. Mr. Kettles, M.A., who comes to Chinook church from the Peace River district, preached his inaugural sermon last Sunday. Owing to the inclemency of the weather not many people were present, but those who were at the service listened to a most impressive sermon.

Born—To Mr. and Mrs. H. L. Anderson, of Chilmark, on Tuesday, June 28, a daughter.

Mr. and Mrs. C. W. Rideout and family are visitors in Calgary this week.

Mr. H. G. McCrea, of The Hanna Herald, was in town last Thursday attending the doings of the Masonic Lodge.

Mr. A. H. Cliphsham has accepted the position of manager of the National Elevator at this point.

Mrs. D. McPherson, of Winnipeg, is visiting her sister, Mrs. R. Dunn.

The U.F.W.A. will meet in the Chinook School on Saturday, July 9, at 8.30 p.m. This is an organization meeting and every member is requested to be present.

Mr. H. L. Manzer, who has been principal of the Chinook School for the last two months, left on Saturday for Nelson, B.C.

The Service Garage is selling plain casings 30 by 3 1-2 at 16.50 Non-Skids at 19.50 and Nobby Treads at 20.00. Other sizes of tires and tubes at proportionate prices.

Get ready now for Chinook Fair; prizes differ very little from last year's prize list.

Mrs. H. Meade is in Calgary this week attending the Fair.

Miss C. Fox, of Youngstown, is in town this week visiting her sister, Mrs. Hinds.

Mrs. R. L. Peters, of California is visiting her father, Mr. E. E. Noble.

Constable Torpey, of Youngstown was in Chinook to day.

A shipment of Men's Worsted Pants have just arrived. We were fortunate in securing above at a discount, enabling us to retail them at below pre-war prices. Drop in and see them.

Ginghams

We have made a decided reduction in the prices of our Ginghams. It will pay you to get our prices.

Groceries

As usual we still have the lowest prices on everything in the Grocery line. We are getting new customers daily, which goes to prove that the quality and price of our different lines must be right. Are you spending more money than you have to, for Groceries? Get our prices whether you buy or not.

J. M. Montgomery

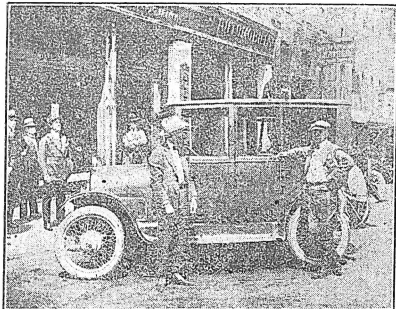

"The Store that Saves You Money"

A Justifiable Postponement

The Directors of the Western Canada Colonization Association are to be commended for their action in postponing the actual work of bringing in settlers until they secure from the prairie provinces a reasonably firm price list of unoccupied lands available for sale. The Association will not be warranted in expending the large sum of money subscribed by its backers until it secures reasonable co-operation from the three Governments. It would be nothing short of a disaster if lack of action by the Manitoba, Saskatchewan and Alberta Legislatures should prevent the use of this great fund for the general advantage of the Canadian West.

We look to see the forthcoming conference of prairie province Premiers agree upon some workable basis of action that will facilitate the operations of the Western Canada Colonization Association, as of other immigration agencies. The sooner the twenty million acres of idle land near the railways, now held out of production by more than eighty thousand individual speculators, is brought under the plow, the sooner will good times return, the burden of taxation be lightened and the National Railways achieve a self-supporting basis.

Remarkable Trip In Overland Car

Overland tours of 75,000 miles are not common among Canadian automobile owners but one was completed this month that took in territory from coast to coast, north as far as Edmonton and south to Lower California.

Mr. J. T. Pears, who was in business in Toronto for many years, undertook the trip chiefly for his health's sake and was accompanied by Mr. Roy M. Jones. After preliminary tours through Muskoka, Montreal and the Adirondacks to the Atlantic, they commenced their long trip by way of Chicago and St. Louis and then north again to Winnipeg. Crossing the Rockies through the Crowns Nest Pass, they visited Vancouver and proceeded to Los Angeles.

Sleeping in the car every night

proved a wonderful tonic, and they thoroughly enjoyed the trip, which was not marred by a single accident. They were always able to obtain gasoline and neither mountains nor deserts proved an obstacle to their "90" Sedan. After several months in California, every district being visited, Mr. Pears and Mr. Jones returned by the New Mexico and Colorado route, averaging about 125 miles a day.

They brought back two monkeys, one an Australian Java, the other a Philippines Ringtail, which were photographed on top of the car when driven up to the Toronto branch of the Willits Overland Company. The monkeys, Mr. Pears states, are becoming accustomed to their new home very quickly.

Wind On the Stomach

Quickly Relieved

It is a good thing to know just what to do when the stomach starts. One sufferer relates the following experience: "A few months ago I ate some green vegetables and some fruits that was not quite ripe. It brought on indigestion, hiccoughs, nausea and cramps. I belched gas continually. A neighbor urged me to use 'Nerviline,' I took it in hot sweetened water, and it got quick relief. I will never again be without this valuable remedy." Nerviline is a household necessity. Large 35c bottles sold everywhere.

A Waste.

"Closest is the stingiest man I ever knew. He smoked his cigars to the last half inch, chewed the stumps and brushed his teeth with the ashes. Even then he wasn't satisfied and stopped smoking."

"Why?"

"He couldn't think of any way to utilize the smoke."

Good-looking girls are born, but most good-looking women are self-made.

It sometimes happens that a shady character basks in the sunshine of popularity.

Words are all right when backed by brains.

Star gazing pays the astronomers, anyway.

Saskatchewan Rifle Association Meet

Attractive Prize List Offered at Meeting at Regina, July 18th to 20th. The annual Saskatchewan Provincial Rifle Association meet will be held at Regina on July 18, 19 and 20. \$2,000 are offered in prizes. Ammunition will be supplied free with plenty of opportunity for practice. The S.M.L.E. rifle will be used. Prize lists can be had from Major Styles, the secretary at Regina.

Suspense

She.—Tell me, Jack, am I the first?

He.—Wait—

She.—Don't stop me. Am I the first girl who ever asked you if she was the first girl you ever kissed?

Judge.

Wireless In North.

The Federal Government of Canada is installing four wireless receiving stations between Peace River Crossing and the Arctic Ocean.

When two women begin exchanging compliments it's the recording angel's cue to get busy.

There never was a war in which each side couldn't prove the other the aggressor.

Europe and North America use nearly four-fifths of all the coffee the world produces.

CUTICURA PROMOTES THICK HAIR

Cuticura Soap shampoos preceded by touchings of Cuticura Ointment to spots of dandruff, itching and irritation are most successful. These frequent touchings save the hair, clear the skin and moisten every part of the scalp and hair.

Farthest North Bank

Union Bank Will Open a Branch at Fort Smith, in Latitude Sixty Degrees North.

Carrying bank accommodation for the first time into the northern oil district, the Union Bank of Canada will open a branch at Fort Smith, in latitude sixty degrees north. It is not to be expected that the Fort Smith Branch of the Union Bank can become a profitable venture, particularly in its initial stages, but it is characteristic of Canadian banking that the banker should accompany the forerunner of civilization and development in any movement tending towards national progress.

THIN, WATERY BLOOD MEANS ILL HEALTH

Rich, Red Blood Brings Bright Eyes and Rosy Cheeks.

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.

When the blood becomes thin and impure the patient becomes pale. She not only tires out easily but often suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite.

In this condition Dr. Williams' Pink Pills will be found to have a beneficial action on the blood. Miss Delina Lafreniere, St. Ambrose, Man., has proved this in her own case, and advises others to use these pills. She says: "Before I began the use of Dr. Williams' Pink Pills I felt like a complete wreck of my former self. My blood was poor and thin. I suffered from faint and dizzy spells, and had backaches and headaches almost every day. I decided to give Dr. Williams' Pink Pills a trial, and by the time I had used three boxes I felt much better and I continued taking the pills until I felt as well as I ever did. For what they did in my case I cannot recommend these pills too highly."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Germany's Oldest Bell Broken

Was Cast In 1471 and Weighed Eight Thousand Pounds.

Berlin has just learned that the largest bell in the cathedral was broken while tolling for the funeral of Kaiserin Auguste Victoria, and that having bidden adieu to this member of the Hohenzollern family it will never be heard again. The bell had one of the most beautiful tones of any bell in all Germany. It was cast in 1471 and weighed 8,000 pounds. It is six feet in diameter. It was placed by Frederick the Great in 1747 in the tower of a cathedral, which then stood in the Lustgarten, near the royal palace in Berlin. It was installed in the present cathedral when that structure was completed seventeen years ago.

Will Direct Traffic to Canada.

The drastic immigration restrictions which have recently come into effect in the United States will, it is thought, have a natural sequence in the diversing of the superfluous flow to Canada. Authorities are also of the opinion that the rigid enforcement of the act will result in the transferring of some of the vessels of the New York-trans-Atlantic fleet to the port of Montreal.

Manitoba Butter Production.

More than 8,000,000 pounds of butter were produced in Manitoba in 1920, according to L. A. Gibson, provincial dairy commissioner. Of this amount 3,000,000 pounds were exported.

Try Frozen Desserts

BY LORETTO C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management.

As the warmer days come, the frozen desserts should find place upon the family table. Why don't women make them more often than they do? Simply because they believe that to make a freezer full of frozen strawberries is a much more trouble than to make a lemon pie. But is it?

The freezers on the market are simple of construction and easily save their cost in the first few weeks of their use. A freezer making as little as a pint, may be obtained in the shops. A pint gives two or three portions.

For general use, one-third as much salt as ice is used. The salt must be the coarse salt sold for this special purpose. The ice should be placed in a stout canvas bag and crushed with a mallet until quite fine. Large sharp pieces of ice have been known to pierce the tin containing the material to be frozen.

A freezer should never be filled more than three-fourths full, for any mixture expands in freezing.

Now for recipes. A free-hand cook really needs very few recipes. For instance, if you remember that a frozen dessert never tastes as sweet as it really is, you will know when you taste the mixture before it is frozen that it must taste unusually sweet to be "just right" when it is frozen. The simplest frozen dessert, perhaps, is lemon pie. To make this, prepare an unusually sweet lemonade. A little of the grated rind intensifies the flavor of the lemonade. Freeze and serve.

For orange pie, prepare a very sweet orangeade containing some ground rind, as well as part lemon juice. In fact, most every fruit ice contains part lemon juice. This prevents an otherwise insipid taste.

Frozen berries are prepared by adding one-half as much crushed and sweetened berries as you have sweet lemonade.

In freezing any ice it is not necessary to turn the handle continuously. A turn now and then is sufficient. When the handle begins to turn "hard," carefully remove the top of the can to prevent salty water from entering and spoiling the contents of the can, scrape off the dasher, if there is one, and replace the cover.

Plug up the hole in the cover with a cork or other device, add salt and ice to the pail and wrap a piece of canvas or heavy blanket over the freezer to prevent undue melting. Allow the freezer to remain undisturbed for an hour or longer before serving, if convenient.

Get Together Results

Benefit Derived From the Accredited Herd Plan for Control of Tuberculosis in Cattle.

A few years ago the United States breeders of pure-bred cattle, recognizing the necessity of more effective measures for the control of tuberculosis, arranged a conference with officials of the Bureau of Animal Industry at Washington, the result of which was the adoption of what is known as the Accredited Herd Plan, meaning that the herd had been thoroughly tested and found entirely free from any symptoms of tuberculosis. The plan proved so successful (over a thousand herds being accredited in a brief period) that a decision was arrived at to adopt the system in Canada. Regulations were promulgated which came into force in September, 1919, and have proved gratifyingly successful, a number of herds having been accredited while many others are under test. There is now an agreement between Canada and the United States that cattle from accredited herds may enter either way, without detention or test.

Air Harbor For Regina.

The establishment of a municipal airport at Regina is now over an accomplished fact, and of two sites submitted by the city to the Canadian Air Force Association, the association selected one comprising about one hundred acres. All that remains to complete arrangements is the receiving and erection of the Bessoneau hangar, which has been reserved for Regina by the Canadian Air Board.

A wise girl occasionally induces a young man she doesn't like to act as pacemaker for the one she does like.

If we love our enemies we certainly do hate to shoot it.

Manitoba Farmer Now So Strong He Can Put In Full Time at Work

"I was beginning to think I never would be myself again but Tanlac has put me back in as good health as I ever enjoyed in my life," said John Brown, well-known farmer of Saint Clair, Manitoba.

"I had a bad stomach and it had been troubling me for the past two and a half years. My appetite was fairly good; that is, I could eat but it looked like everything turned against me and brought on indigestion. Gas formed and would bloat me up something awful. I slept poorly, lost weight and got so weak I couldn't half do my work on the farm.

"Well, I'm mighty glad Tanlac came my way. I saw before I finished my first bottle that it was doing me good and now I feel as strong and healthy as I used to be years ago. My stomach never gives me any more trouble and I eat three good rousing meals a day like a hard working man ought to.

"I sleep fine, have picked up considerably in weight and can put in full time at work every day now. Tanlac gets all the credit for my good health today. To my way of thinking there is not a medicine that can compare with it."

Tanlac is sold by leading druggists everywhere.

Harbor Cut Out Of Solid Rock

Basin Has Area of Two and One-Half Acres.

There is a natural impression that all construction engineering work of the ordinary kind in Great Britain was suspended during the war, but in point of fact it was found possible to keep quite a number of schemes going in spite of the concentration of effort upon definite war work. A case in point is supplied by an extensive harbor improvement which was begun in Great Britain a month or two before the war. The scheme included a new basin with an area of 2½ acres and 1,500 feet of new quays. All through the war the work proceeded steadily, if slowly. Its most remarkable feature was that the basin was cut out of solid rock to give an average depth of 13 feet. The material excavated was ingeniously used to reclaim from the sea a considerable tract close to the harbor.

Silos In Alberta.

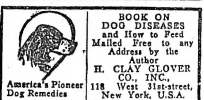

Much activity in building silos is reported by a Lethbridge firm, which has disposed of eighteen this year. It is estimated that between two hundred and four hundred silos will be erected in that district this summer.

The Endurance of Your Automobile, Truck, or Tractor

Depends not only upon the time of Lubrication, but the kind of Lubrication.

WHITMORE'S AUTO GEAR PROTECTIVE COMPOSITION

Adds 500% to Gear Life. Thousands of tests have been conducted by Lubricating experts to demonstrate the relative efficiency of various lubricants. The results of these tests conducted over years, has fixed the choice of sixteen leading manufacturers. These manufacturers include:

The largest builder of fine cars in the world; The largest builder of trucks in the world; The largest builder of taxis in the world; The largest builder of worm gears in the world.

Many lubricants contain acid. They not only fail to counteract friction, but are themselves harmful and corrosive to gear and bearing surfaces.

Whitmore's Auto Gear Compositions Contain No Acids

They are proof against heat and cannot break down or squeeze out. In the Panama Canal Emergency Dam, six million pounds rest on an unbroken film of WHITMORE'S. After an exhaustive test the U.S. Army contracted for its exclusive use. Manufactured by The Whitmore Manufacturing Co., Lubricating Engineers, Cleveland, Ohio.

Meighen Is Opposed To Renewal Of Present Treaty With Japan

London.—The question of the advisability of renewing the Japanese alliance resolved itself into a full-dress conference of Premiers. Right Hon. Arthur Meighen, who had circulated his case in a confidential document and who intended to speak but briefly, addressed the conference for an hour. Premiers Smuts, of South Africa; Hughes, of Australia; and Massey, of New Zealand, followed with speeches of equal length.

Premier Meighen, it is understood, urged against the renewal of the treaty, either in the present form or with modifications. He pointed out the Canadian objections to it which were largely in line with his arguments already indicated in these dispatches, but rested the greater part of his case upon the claim that the old policy of alliances is out of tune with the times; that 'alliances as a means of maintaining peace have proved futile in the past and that the time has now come when new methods ought to be tried for the prevention of war.

Dealing with armaments, Premier Meighen drew a somber picture of the possible effects of the race in armaments between the British Empire and the United States. The great task before the nations was restoration of the world's economic stability, shattered by war; the payment of debts and the removal from the shoulders of the peoples of the present terrible burden of expenditures and taxation. To bring this about it was essential that there be limitation of armaments, something which he believed could be achieved by a comprehensive conference of the Pacific powers. It was not, he declared, a question of deserting Japan; it was merely a question of maintaining the friendship for Japan but in such a way as not to impair our good relations with other nations.

Premier Hughes, who followed Mr. Meighen, strongly supported the alliance. He supported it on the grounds that it had worked well, that it afforded the best means of protection for Australia, and that it provided a restraining hand upon Japan which was the best guarantee of peace. "Do not let us sacrifice the substance for the shadow," was the burden of his argument.

Men in Montreal Becoming Desperate

Unemployed Threaten Violence If Not Given Work.

Montreal.—Over 600 men applied for work on the site of the new \$9,000,000 Mount Royal Hotel. Most of them applying were literally desperate, the contractors in some instances advancing part of wages to employ them. One man went so far as to threaten badly harm to the contractor if he did not take him on.

Byng Lands August 11.

Halifax.—Lord Byng of Vinny, the new Governor-General of Canada, will land at Quebec on August 11 from the Empress of Britain according to advices received here by the Halifax Board of Trade, which has requested through Hon. F. B. McDermid that Canada's new Governor-General make his Canadian landing at Halifax.

Settlement Reached In British Coal Miners' Strike

Hoped That New Relations Will Now Be inaugurated Between Capital and Labor.

London.—The prolonged stoppage in the coal industry ends by a settlement reached when the government agreed to renew its offer of a subsidy of £10,000,000 to avert the hardships of the next three months, because of necessary wage reductions, thereby conceding the one condition required by the miners in the settlement reached between the miners and the mine-owners.

By the terms of the new arrangement, a wage basis will come into effect for the next eighteen months, whereby the miners receive 20 per cent. above the pre-war scale of wages, with an additional share of profits on an agreed percentage basis which will be regulated by the creation of a national board and district boards.

The settlement is only a slight modification of the terms the miners rejected by their last ballot, and con-

General Semenov Disappears

Part of His Army Seen With Japanese Officers.

Vladivostok.—General Semenov, the anti-Bolshevik leader, who for some time has been on board the steamer, Shodo Maru, from which he was permitted to land, has disappeared from the steamer. Prior to the disappearance of Semenov, his troops were observed in the direction of Grodovsk, about one hundred miles northwest of Vladivostok on the railway, from which place it is anticipated a separate government may be proclaimed. One regiment which was seen on the way to Grodovsk was accompanied by an automobile having in it both Russian and Japanese officers.

Semenov was perhaps the most prominent of the anti-Bolshevik leaders in Eastern Siberia until his forces and other opponents of the Moscow Government were badly broken up in the Bolshevik sweep eastward more than a year ago, which resulted in the collapse of Admiral Kolchak's all-Russian Government at Omsk, and was followed by the establishment of governments more or less friendly to the Moscow regime, at Chita and Vladivostok. Semenov disappeared from view for some time.

Is Earth Growing Warmer?

Director of Dominion Weather Bureau Thinks Warm Cycle Is Here.

Toronto.—Sir Frederick Clouston, director of the Dominion Meteorological bureau, states that the earth is getting consistently warmer, but he simply attributes it to a seasonal or cyclical condition which has manifested itself in a more than average movement of air from equatorial parts. This has been accompanied by a natural shortage of rain which has been especially marked in Southern Alberta.

So far as last month is concerned it has been remarkable not only for its warmth but also for its sunshine and for its comparatively small amount of rain.

How the Farmer Loses Out

Ontario Farmer Carries Stockers Over Winter on Slim Margin of Profit.

Samia, Ont.—The Department of Agriculture representative in Lambton County reports an incident typical of the cattle situation as it affects the farmer of this county.

One farmer in relating his experience, says that he purchased \$4,000 worth of stockers last fall, fed them all winter on the crop that grew on 170 acres of land, and sold them about a month ago for \$4,023. This shows how farmers have to take their losses.

Crushed To Death.

New Westminster.—T. C. Draper, 18, an employee of the Western Canada Cordage Company here, was crushed to death when he was caught in a belt of the machinery at the factory of the company.

Expect Cheap Coal In England Soon

London.—The immediate consequence of the miners' new agreement will be the opening of fresh coal seams which are known to exist in many coal fields. Under the settlement these will now be exploited for the benefit of both parties and it is confidently anticipated that whole-hearted co-operation between owners and men will result in such working economies that cheap coal will soon be available for the rehabilitation of industry generally.

Danger of Massacre In Asia Minor

Greeks Have Evacuated Ismid and Burned Town.

London.—The position on the I-smid Peninsula in Asia Minor, where the Greeks and Turkish Nationalist forces are opposed to each other, is obscure, Cecil B. Harmsworth, under secretary for foreign affairs, stated in the House of Commons. Information received, however, he added, was that the town of Ismid had been evacuated by their Greeks and was burning with the result that there was great panic in the district. Mr. Harmsworth said there is danger of a considerable massacre and the Allied representatives were taking steps to prevent such occurrence.

Another Payment From Germany

Forty-Four Million Gold Marks Paid Reparations Commission.

Paris.—Germany has paid 44,000,000 gold marks to the reparations commission. The payment was in European currency, because of the commission's recent temporary decision not to require dollar payments because of the adverse effect on exchange. This payment makes a total of about one-quarter of a billion marks Germany has turned over to the reparations commission.

Drought in Paris

Protracted Dry Spell Threatens City With Water Shortage.

Paris.—Owing to the protracted drought, Paris is menaced with a shortage of water as the rivers Seine and Marne are extremely low and are just barely supplying the 400,000 cubic meters of water necessary for Paris' daily consumption.

The municipal council discussed the matter and decided to ask bids for plans to supply Paris with water from the Loire as soon as possible.

Crops Burning Up In South Dakota. Fargo, N.D.—Weather conditions during the past few days around Buffalo, N.D., have been very bad. Dry, hot winds are drying crops fast. There are many traces of black rust, south of the town, crops are in a serious condition and several hundred acres will be plowed up.

U.F.A. Nominates Woman Candidate.

Calgary.—Mrs. Louis McKinney, former non-partisan member for Clarendon riding, was given the nomination of the U.F.A. at a convention held in the riding. She will likely be opposed by a Liberal candidate.

Turkish Nationalist Advance.

Constantinople.—The Greeks have evacuated Ismid in Asia Minor and the Turkish Nationalists under Mustafa Kemal Pasha, now have a clear road to Constantinople. The Nationalists are not expected to respect the neutral zone prescribed by the allied commission.

Oil Prices Drop.

Pittsburgh, Pa.—Crude oil prices were further reduced here when the principal purchasing agencies announced a cut of 25 cents a barrel in Pennsylvania crude, making the new price \$2.25.

Agree On Peace Pact.

Washington.—A compromise draft of the Knox-Porter resolution to end the state of war between the United States and Germany and Austria, was agreed upon by Republican conferees of the Senate and House.

Dry In Maritime Provinces.

St. John, N.B.—Reports from the surrounding country are to the effect that the vegetable crop will be light and prices high this year on account of the drought.

W. N. U. 1375

For Development of Canada

Col. W. Grant Morden, Deputy Chairman of the London Advisory Committee of Canada Steamship Lines, who, in a recent address, urged Canadian business men to be more active in pushing Canada's trade interests.

Mennonites May Not Move

Little Prospect of Exodus From Manitoba This Year.

Winnipeg.—A local government official declared here upon his return from the Manitoba Mennonite settlement that there is little prospect of a movement of Mennonites to Mexico or any other country from the province. He stated that less than 100,000 acres of the 1,000,000 held by Mennonites in Southeastern Manitoba is listed for sale, and up to the present time none of this has been sold nor prospective buyers secured.

Victory for Farmer Candidate

Medicine Hat Bye-Election Gives Gardiner Sweeping Majority Over Government Candidate.

Medicine Hat.—The United Farmers of Alberta forced record a sweeping political victory in the Federal bye-election here, Robert Gardiner, defeating Col. Nelson Spencer, the Government candidate, by a huge majority, which will probably reach the 8,000 mark when all the outlying polls are heard from. Spencer received majorities in only three or four polls of the 148.

It had been generally conceded that the farmers would poll a large vote in the country districts, but it was thought that the city of Medicine Hat would return a large majority for Spencer and that he would do more than break even in the smaller towns.

Germany to Return Railway Materials

Washington.—Germany has fulfilled her obligation to replace railway material taken by her armed forces from foreign countries during the war, according to advices received here in official circles. The Inter-Allied Railway Commission demanded that Germany deliver five thousand railway cars to France and Belgium, of which the former country is to receive 1,500 and the latter 3,500.

Breaks Neck But Still Lives.

Chatham, Ont.—Some days ago John Jones fell off a motor truck and injured his neck. An X-ray examination revealed one of the vertebrae of the neck broken, but the nerve was untouched. Jones was immediately strapped to a piece of plank, and the attending physicians are now confident he will make a complete recovery.

Slump In Sugar.

Kingsport, Jamaica.—An unemployment crisis is threatened here as a result of the slump in the price of sugar. Some estates have suspended operations and others will close unless the government makes a loan to the planters.

Give your local merchants a chance. Buy at home.

Volcano Terrorizes

People of Sicily

Messina, Italy.—The volcano Stromboli, on Stromboli Island, off the north coast of Sicily, has been in wild activity and terror fills the island. The molten rock and sulphurous gases pouring from the crater, it is felt, may spell impending doom to the panic-stricken inhabitants.

The people of the island, frenzied by the uncanny behavior of the volcano during the past three days, are congregating on the shores preparing for an attempt at flight, but waiting in the hope that the volcano will subside.

My First Dog Driving

By O-G-E-MAS-ES (Little Clerk).

(Copyrighted)

I received orders in January of the year 1874 to start west with the Winter Packet of the Hudson's Bay Company and had purchased a nice team of young dogs with light carioles from a clerk who came in from Swan River. The packet man was a famous traveller and known far and wide as one of the best long distance runners in the northwest. Poor Johnny Beads, like so many natives, he did not stand civilization and went to his long home a year or so ago.

I had been a year in the Fort Garry sale shop and hated the confinement, and had made application on several occasions to be sent inland (as the area outside the Red River settlement was called in those days), but the matter dragged, and at last, on threatening to resign, I had my way. So the long-looked for time had come at last, and I was really off for the unknown interior next day. I slept mightily little that night, having waking dreams of great prairie stretches covered with buffalo, high mountains and huge forests, with lakes as big as inland seas, and above all, thousands of really wild Indians.

It seemed too good to be true. The morning came at last and what with delays in the office, closing up important despatches, it was after an early lunch before we left. I paid hurried good-bys to all my friends, and received a hearty hand clasp from Chief Factor John H. McTavish. He was at that time the uncrowned king of Fort Garry and was one of the best chiefs I ever had. His last words to me were: "If you don't like it in the north, there is always a place for you here."

Johnny called "Marche!" and away we went. His dogs were a fearsome sight and very savage. They were called Brandy, Grog, Run and Whiskers. They were all from the plains, were used to travails, and were as big as large timber wolves, with split ears, and were grey and white in color. Both my young dogs and myself treated them with the utmost respect—at a distance—and they evidently had a contempt for us as green horns. He was loaded entirely with mail matter and, of course, dog food and provisions on top of this. His only bedding was a single heavy box was carefully made of the thinnest and lightest of wood and he H. B. Co. white blanket. The packet was to take them to Fort Carlton on the North Branch of the Saskatchewan. This was a distance of between five and six hundred miles, with many a long stretch of plain and but little wood here and there. Other packet carriers met him at Carlton, and on went the great Northern Packet, only reaching some of the furthest posts on last ice. The greatest care was always taken of the precious mail matter.

My young train followed close behind his sleigh, and I noted Johnny studying my dog's gait from time to time. The first stop made was at Poplar Point (an H. B. Post), and Mr. Chisholm was hospitable as usual; in fact, too much so, as it was getting dusky before we pulled out for Portage. Just as we were hitching up Johnny, who by the way started badly, said "B-b-b-boy, your Herod (my yorcorer) hauls too hard in front, so I will put him in the middle of my team and give you Bub-bub-Brandy ahead!" well, I was green and knew no better, so he very quickly made the exchange, threw himself on his sled and was off like a flash. When I called, "Marche!" the dog sat down on the dog and eyed me with a wicked look. I took a step towards him and shook my whip. His reply was to advance in my direction growling savagely, so I retreated. Well, I was in a quandary. Pride forbade me going in and asking for Chisholm's assistance. Suddenly I noted the fence, and taking a good-

sized rail off it, crept up to the rear of the train, balanced the rail on and carefully, then sighting between old Brandy's ear, let it fall. My aim was true, and it bowled him over. With dreadful howls he sprang to his feet and started after my companion at a gallop, I just managing to throw myself in the cariole. Catching up with Johnny at last, I noted he was shaking with merriment, and on stopping for a smoke, he said: "Bub-bub-boy, what did you do to Bub-bub-Brandy?" We had a great laugh over it, but in future I kept my own dogs.

We Meet at Bourgeois.

We reached Portage about nine that night, and Mr. Jas. Hargrave made us very welcome as is usual amongst Hudson's Bay men. Next day we camped at White Mud River, where was one Jimmy Whiteway, postmaster, and here we met my new chief, Factor Archie McDonald, king of the Swan River district. He was by no means prejudiced in favor of Canadians as by far the majority of the officers and men of the H. B. Co. at that time were Scotch, and very clannish at that. Johnny Beads started early next morning for his long trip across the plains and I accompanied Mr. McDonald and party on his inspecting trip. Up to this time I had an easy time with my light cariole, but conditions were changed and my dogs were loaded to capacity, so it was me for the road. Jimmy-Homme, a young French half-breed, who was guide, fortunately took a fancy to the young tender foot, and at once christened me O-gene-sas, meaning little clerk. He had overheard the bourgeois say, "Well, we will see what kind of stuff this little Canuck is made of and he can head the party tomorrow."

It was a good thing that my dog was a short one, only some thirty miles, as I was running the whole distance. If you want to know what it was like, just watch a dog trotting beside a rig and you follow him and keep that up for thirty miles. Luckily for me the track was hard and snowshoes not needed. Oh, boy, but I was tired that night and my legs cramped with the unusual exertion, and it seemed that just about the time I fell asleep the call was made to get up again. This was my first introduction to an abominable habit—tossing with the big end of the company at that period. The guide called all hands between three and four in the morning, dogs were hitched and away we went, the bourgeois at once going to sleep in his cariole, while us poor beggars trotted along. There was no sign of daylight, it was very cold, and our stomachs were fairly grinding for something to eat. In my own case I was stiff and sore from the unusual exertions of the day previous. I also had a sharp pain in one heel. Avoid daylight never come. Talk about an appetite, mine was like a raging wolf. Well, after a hour in the hard skin of the heel over an inch long, and this would naturally open every step I took. "Oh, boy," he exclaimed, "I will soon fix that." Taking off his fur cap, in the crown of which was a square needle (really a three-cornered glove) threaded with deer sinew, and holding my foot tight, he put in three or four stitches. He then covered it with spruce gum, placed some cotton on this, and it bothered me no more. I remembered this recipe and used it afterwards on many occasions. (To be continued)

Develop Frozen Fish Trade

Urges Campaign to Sell Canadian Fish in Great Britain.

Ottawa.—An obstacle to the development of the trade in Canadian frozen fish on the British market is that during the open season for salmon in Great Britain, Canadian frozen salmon is sold as English and Scottish, but in the closed season, from September to February, the demand languishes, as salmon is supposed to be a summer fish.

This information is contained in a communication from J. Forsythe Smith, Canadian trade commissioner at Liverpool, to the weekly bulletin of the Department of Trade and Commerce. Mr. Smith advises an advertising campaign to sell Canadian frozen fish in the British Isles. He states that fish weighing from 7 to 14 pounds find the best sale.

Departed Glory of War Lord

Ex-Kaiser's Castle Is Now Used As a British Club.

London.—Schloss Bublitz, one of the ex-Kaiser's castles in the town of that name near Cologne, has been converted into a club for the use of the British army of occupation, one wing for officers in which the original furniture has been retained and another for men.

The fine suits of rooms upstairs is used for dances, but in the daytime one has to doze off overleaves before looking through them. They contain some beautifully inlaid wooden cabinets and dull conventional portraits.

It pays to patronize home industry. Buy from the merchants in your own town.

Boy and Girls' Pig Clubs

During recent years, and particularly during the war period, Canada's export bacon trade developed very rapidly. This is proven by the fact that last year exports of bacon from the Dominion amounted in value to \$34,000,000 and that our killings of hogs in eight years doubled in number while those in Denmark and Ireland decreased considerably. With the return to normal conditions, vigorous efforts will have to be made in order to maintain this position. The Live Stock Branch of the Dominion Dept. of Agriculture has entered upon a special campaign to stimulate the production of hogs of the bacon type. In co-operation with the provincial departments, an arrangement has been made to offer attractive prizes to members of boys' and girls' pig clubs who exhibit at local fairs, both for quality of product and ability in judging. Where such clubs do not exist, attempts at organization will be made. The idea is not only to stimulate and sustain production, but to circulate knowledge of actual market requirements and thus to create a standard type of bacon hog for the entire Dominion. Rules and regulations governing the competition may be obtained from the Dominion Live Stock Commissioner at Ottawa.

**Chinook Fair
August 4-5**

Bills and Prize List will soon be out announcing the Big Fair at Chinook on Thursday and Friday, Aug. 4-5. Over three thousand dollars in prizes as well as other special prizes will be given. Don't fail to be in attendance on this the one day in the year when you are assured of a good time, as the management intend to make this the best fair in the province. A special exhibition from the Experimental farm at Lacombe will be on the grounds on that day.

As usual, the Department of Agriculture, Edmonton, is providing the judges for the live stock, and the classes coming under this heading should be well represented. In fact there appears to be an unusual interest in the horses and cattle classes. It is hoped that the farmers of this district will not hesitate to make entries, as it depends greatly among these classes whether the exhibition is a success or failure. Get your exhibits ready for Chinook's Big Fair, Thursday and Friday Aug. 4-5.

Now's the time to paint that car. We have Effecto Auto paint, Top Dressing and Body Polish. See us for prices.—The Service Garage, Chinook.

Mrs. A. Hoar, of Loversna, who has been visiting her brother Mr. R. R. Dunn, returned this week. Call at the Advance Office for Fair Prize List.

A modern St. George and the Dragon.

**Copious Rainfall In
Chinook District**

Every body in the Chinook district is feeling jubilant, as a result of the heavy rains which commenced to fall here last Friday and not till Sunday evening did the weather clear up. Previous to the rainfall the crops were needing moisture and it was only a matter of a few days with some and the situation was becoming very trying for the farmer. However the anxiety has been removed for the time and prospects for at least a fair crop are good.

Since last Friday, when the rain first commenced, it is estimated that the moisture is down over three inches on grass land and from five to six inches on ploughed land.

Last week we had the pleasure of taking a trip out to Mr. I. W. Deman's farm south of town. Mr. Deman is farming two sections of land and has all under cultivation except a half section which is used for pasture. Apart from a nice farm home there is one of the finest barns in the country, which is fitted up with all the latest conveniences. To erect a barn to-day like the one on Mr. Deman's farm would cost in the neighborhood of five thousand dollars. The farm is equipped with the latest machinery including two Rumley engines.

Death of Mr. David Clunis

It is with regret that we announce the death of Mr. David Clunis, of Ridelvale, which occurred at his home on Sunday evening at the age of 62 years.

Mr. Clunis, who was apparently in good health previous to his death, was out in the yard when he was taken ill suddenly with heart trouble, passing away soon after he was taken into the house.

He leaves a widow and four step-sons to mourn his loss. The funeral was held in Cereal cemetery Tuesday, the Rev. J. P. Sutcliffe officiating.

Gopher Bounty Extended to Aug. 1

The Council of the M.D. of Coltholme, No. 243, will extend to August, the bounty of three cents for each gopher killed within its boundaries by residents of the municipality. Tails to be delivered to the Council of the Division before that date. Lorne Proudfoot, Sec.-Treas.

British Admiralty Pursues A Courageous Policy Of Most Rigid Economy

Great Britain is building four new battleships and orders for these have already been placed. It will be recollected that these new ships were included in the naval estimates, announced some little time ago, and to replace those of an obsolescent type. Three years will be necessary to make the ships ready for sea and the approximate cost of each ship will run to \$9,000,000. In this announcement there is nothing to cause undue excitement, it being merely the sequence of a well-considered Admiralty scheme, which does not in any way involve a race in armaments. A diagrammatic statement is available of the number of battleships under the jurisdiction of the three leading naval powers, representing their position in the present year and what it will be in the year 1924, assuming that the four new British battleships are completed by that time. It reads:

United States	1921	1924
Great Britain	17	33
Japan	32	36
	11	17

It should not be forgotten that naval power consists as much in men as in ships, and in this connection it may be recalled that when Mr. Walter Long was First Sea Lord last year, he stated that the establishment of the British fleet should be 127,500, including officers and men. So far as ships are concerned, the British Admiralty has pursued a courageous policy of rigid economy since the close of the last war. Of the vessels which were under construction at the time of the armistice many hundreds were scrapped, and following that action, the Admiralty sent to the ship-breakers yards almost a couple of hundred completed vessels, embracing many classes of battleships, all considered more or less obsolete.

In the past Great Britain maintained a two-power standard and afterwards built to maintain a 60 per cent. superiority over Germany, whereas now a one-power fleet is all that is aimed at. The British Admiralty, by its moderation, has set an example consistent with the new ideals embodied in the League of Nations.

The Change in Manners

Boston Professor Deplores the Modern Trend in Slip Show Manners.

Boston's most distinguished octogenarian, President Emeritus Chas. W. Eliot, of Harvard, is discussing the manners of men and women. He says that he has watched young women and "ladies" for three generations, and their habits have changed tremendously since he was a young man. He says that young men and women do things now that would have been "simply out of the question" when he was young man. He says the girls expect young men to be rude. He says that young men and women are coarse even in their greetings and farewells nowadays. He admits that "an old-fashioned person like me" may misjudge youngsters of today, and he tries to hope that the change of manners is for the better.

Dr. Eliot's remarks were made in an address to the Society of Harvard Dames in Cambridge, the other day, and were printed in the Harvard Alumni Bulletin.

Take Census of Blind.

As part of their peace-time program a census of all blind persons in Saskatchewan is being carried on by the Provincial Red Cross Society. The work is being done for the Canadian National Institute for the Blind, and was undertaken by the Saskatchewan advisory committee for this organization, the Red Cross lending its facilities to secure the information.

New H. B. Store For Victoria.

The new Hudson Bay Company building at Victoria, B.C., represents an investment of \$2,000,000, and the fixtures, which are mahogany, another \$500,000. There will be forty departments employing between 250 and 300 people. Goods valued at \$1,000,000 have been purchased in England, and will be in the store when opened for business in August.

Country Clergymen (to local men of all work): I want you to put up some wallpaper I have bought. When can you do it?
Well, sir, you see, I'm rather busy just now. Hung Mrs. Smith yesterday; hanging your churchwarden today; but if it's convenient I'll pop round and hang your reverence on Wednesday.—London Ideas.

W. N. U. 1375

Dollar's Purchasing Power

Is Slowly but Surely Coming Back to Normal, Say Financiers.

Purchasing power of the dollar, based on current prices, was 100 cents when the world war began. In July 1915, it was worth 99 cents; in 1916 its purchasing power was but 91 cents, and it shrank faster and faster. July, 1917, found it at 73 cents; July, 1918, at 66 cents; July, 1919, at 55 cents. In January, 1920, it was worth 50 cents; in April, 48 cents; in July, 47 cents—and then came business collapse. By December the purchasing power of a dollar had crept back to 54 cents, and now, if you happen to have a dollar, you will find it has increased in buying vitality since the first month of this year about 80 per cent. So the financiers figure, and they have studied the matter. Just the same, purchasers of commodities in certain towns will not accept the figures at their face value.

Saskatchewan Scholarships

Three Scholarships for 1921 Approved by the Committee of Selection.

Three Saskatchewan students will this year have an opportunity to continue their studies in Paris, France, three scholarships for 1921 having been approved by the committee of selection appointed to select candidates under the act passed by the Saskatchewan Assembly last year. The scholarships, which are worth \$1,200 per year each, are open to men and women engaged in study, teaching, or other educational or professional work in the province.

British Columbia Forests

Total Value of Forest Products for 1920 Was \$92,628,807.

Federal and Provincial Government reports show that British Columbia contains approximately half of the saw-timber of Canada. The total value of the forest products of the province for the year 1920 was \$92,628,807, as against \$70,285,094 for the previous year. The value of the lumber cut advanced by nearly sixteen millions, while the increase in the value of pulp and paper amounted to over nine millions.

Community Health

Subject Should Interest All, Says Calgary Doctor.

"Every citizen awake to his best interest should take a keen interest in the health and status of the community," said Dr. Mahood, city health officer, during an address on community sanitation at Calgary. "The health of the community is the combined health of those living in it," he declared, and urged everyone to exercise the best judgment during the summer months, when certain diseases are liable to become prevalent.

Trees To New Zealand

British Columbia Trees Sent to Antipodes for Reforestation Purposes.

Vast tracts of waste lands throughout New Zealand are undergoing the process of reforestation with British Columbia trees, declared Mr. F. J. Nathan, managing director of the manufacturing firm of Joseph Nathan & Co., Limited, Palmerston North, New Zealand, who arrived in Vancouver recently. Canadian experts had been brought over by the government, he said, and a systematic scheme for developing big forest reserves was being carried out.

Fruit Growing at Grand Forks.

The fruit-raising sections of the Grand Forks district in B.C. are receiving the benefits of a considerable immigration this summer. During the past week, two carloads of settlers' effects arrived from the United States, and substantial holdings of fruit land were purchased by two Englishmen and an arrival from Mesopotamia.

Indispensable.

A correspondent says that Lloyd George is growing irritable and that it is hard for his colleagues to get on with him. They would find it much harder to get on without him.—Hamilton Herald.

The birds English fanciers keep in an aviary of fair size are the thrush, blackbird, starling, goldfinch, bulfinch, linnet and siskin—the robin being too quarrelsome.

Good Farm Management

Good Manager Is Out to Make the Most Possible From This Year of Farm Operation.

Good management is the first essential to success in farming just as it is in any other business. The good manager is always on the alert for ways to improve his farm.

He is always planning for and securing things that will save his time and his labor, cut his production costs and enable him to make more money out of his farming business.

This year is a special test for farm management. Some farmers, because of disappointment in regard to last year's crops are inclined to be less active than usual. They are timid and perplexed. Their plans for the year are indefinite. They are too likely just to "drift along," missing opportunities to advance themselves along the road of accomplishment.

The good manager, on the other hand, is out to make the most possible from this year of farm operation. Though the prospect for profits may not be so promising as it was in the spring of recent years, he sees opportunities as good as, or better than, they were in the years before the war. And he is studying out the ways to take full advantage of those opportunities.

The good farm manager knows the value of farm implements—knows that in a year like this when crop production costs must be kept low, good implements are more important than ever.

If he needs a new implement—if careful consideration shows him that the use of the implement will aid in making his farming more efficient, make his time and labor worth more, and make him dollars ahead at the end of the year—he doesn't hesitate in buying it.—Agricultural Alberta.

Large Auto Factory For Montreal.

It is reported that a large automobile corporation, capitalized at ten million dollars, will shortly be launched in Montreal. Negotiations are now practically completed by the various parties interested, and an announcement in this connection will be made shortly. The concern, it is understood, will engage in the manufacture and distribution of automobiles, with a large factory in the vicinity of Montreal.

Every time some men do a good act they manage to get caught at it.

Beaver Farm in Alberta

One of the Largest Beaver Farms in the West on Ribstone Creek, Near Edgerton.

F. F. Parkinson, who has a farm two miles east of Edgerton on the Ribstone Creek, has probably one of the largest beaver farms in Western Canada, says the Edmonton Bulletin. Although beavers have become almost extinct in most parts of the west, under government protection during the past five or six years they have multiplied in the Ribstone Creek in parts of the stream where conditions are suitable they thrive in large numbers. The Ribstone Creek runs through a part of Mr. Parkinson's farm for a distance of nearly a mile. The creek, which is only from twenty to thirty feet wide is bordered for the most part with poplar and willow which furnish a supply of food, and wood for building their dams, as well as a protection. In this section of the stream it is estimated that there are several dozen beavers. Occasionally a beaver is seen at work, but it is impossible to determine the number, except by the evidence of trees being cut down and stored for food and the dams built.

The beavers are kept from moving up or down stream by a fence made of wire, built below and above the section of the stream which they inhabit. Mr. Parkinson intends to build a fence along both sides of the stream as well.

Beavers have been under government protection for a number of years, but special arrangements have been made in the case of beaver farms whereby the furs are sold through the provincial game guardian by tender, twenty-five per cent. of the sale price being retained by the government. From the standpoint of profit beaver farming ranks favorably with any other line of fur farming. They more than double in number every year and on an average the furs sell for \$50 each. This year, owing to the low prices of all furs the price is somewhat lower.

Young Lady (on first visit to a Western ranch): "For what purpose do you use that coil of line on your saddle?"

Cowboy: "That line, as you call it, lady, we use for catching cattle and horses."

Young Lady: "Oh, indeed! Now, may I ask, what do you use for bait?"

Young Lady (on first visit to a Western ranch): "For what purpose do you use that coil of line on your saddle?"

Cowboy: "That line, as you call it, lady, we use for catching cattle and horses."

Young Lady: "Oh, indeed! Now, may I ask, what do you use for bait?"

World's Wheat Supply Expected To Be Short According To Experts

The Glacial Period

Life of Glacial Age Is a Puzzle to the Scientists.

When did the Glacial Period end? Was it, an American scientist pertinently asks, when the ice began to disappear, or had half disappeared, or had entirely disappeared? asks Answers.

If the last mentioned, then we are still in the Ice Age, for Europe has its glaciers, and so has Labrador, the Rockies, Alaska and islands in the Arctic regions, and, as every school boy is aware, Greenland is nearly covered with an ice-cap.

Can the question be settled by a reference to climate? If so, then the Glacial Period ended for, say, the Ontario region at the beginning of Lake Iroquois, for its trees belonged to a cold, temperate climate.

Probably the point is best settled by making the Glacial Period a progressive event, regarding it as ending in one region perhaps thousands of years before it ends in another.

Without doubt, this far-off epoch of thick-ribbed ice constitutes one of the great mysteries of the world's history. It is absolutely hedged on with uncertainty.

Though it is generally believed that there was more than one Ice Age, no one can say with any degree of certainty whether there were three, four, or six, or a dozen, for the matter of that.

And the deepest of all mysteries connected with one or any of these icy periods is what was the cause of them. Both geologists and astronomers have, so far, failed to solve that problem. It is not yet even agreed as to what extent the ice-cap covered the globe.

Bound to Get Him.

The Motorist.—Say, friend, my engine's stalled. Think you can help me find out what's the matter with it?

Constable Tallimber.—I can, but I won't just now. I can't pinch you for speedin', but in ten minutes I'll fix up your engine and then pinch you for parkin' here too long.—Houston Post.

EXTERMINATE THE GOPHER

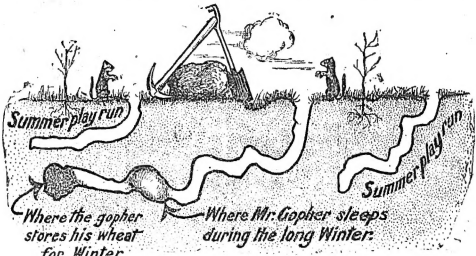

Diagram Showing Lay-Out of Gopher Holes and Methods of Rodents in Storing Winter Wheat.

Coal Licenses in B. C.

During 1920 Twelve Coal Leases, Covering 1,680 Acres, Were Issued.

During the fiscal year 1920, 275 coal prospecting licenses were issued in British Columbia, covering an area of 126,500 acres, as compared with 112 licenses in the previous year and 72 in 1918, according to Hon. T. D. Pattullo, Minister of Lands. The fees paid on account of these licenses totalled \$33,381. Twelve coal leases, covering 1,680 acres, were issued during the year, as compared with one lease in the previous year and three in 1918. Revenue on account of coal lease rentals received during the year was \$52,427, and the total received under the Coal and Petroleum Act \$88,411.

The Earth's Population.

The population of the earth is estimated at nearly 2,000,000,000, certainly not less than 1,650,000,000. There are about 10,000 species of mammal, about 14,000 of birds, 7,000 of reptiles and 15,000 species of fish.

Bless Her Heart.

Little Girl.—Papa, it's raining.
Papa (whose temper is somewhat ruffled).—Well, let it rain.
Little Girl (timidly).—I was going to, papa.—Pearson's Weekly.

Suttie, the practice of a widow sacrificing herself on her husband's funeral pyre, was made illegal in British India in 1829.

Alberta's Population

Is Placed at 620,000 by Provincial Statistics Branch.

Alberta's population is put at 620,000 by the provincial vital statistics branch. That figure has been made up on the basis of the births and deaths during the year 1920, the official report of which has just been issued.

Births in the province in 1920 numbered 16,565, a net decrease of 2,435 over those of 1919. The record for any one year had previously been held by 1918, but this last report goes beyond that record by 1,675. The birthrate per thousand of population was 27.72.

Edmonton and Calgary ran almost neck and neck in the birth rate with 2,339 and 2,369, respectively. Children born of British stock predominated in both cities, and particularly in Calgary, where the figures were 1,099 British, and 727 Canadian. In Edmonton the births were 902 of British stock and 816 Canadian.

Woolworth Widow's Fine Home.

The Woolworth mansion at Glen Cove, occupied by the widow of T. Woolworth (of 5 and 10-cent store fame), is a magnificent structure, as imposing as it is grand and, like the Woolworth building in New York city, is most impressive in its size.

When a young widow asks a man whether he has his life insured he's awfully slow if he doesn't take the hint.

Forestry Patrol By Aircraft

Machines Will Be Loaned to Companies Interested in Experiment.

The value of lighter-than-air aircraft for forestry patrol and similar work in Canada will, it is expected, be demonstrated during the present flying season by several Canadian lumbering firms, working in co-operation with the Canadian Air Board. The machines, which are equipped with 100 horse-power Rolls-Royce engines, will be loaned to the various companies interested in the experiment by the Air Board. It is expected that eight complete machines will be in operation in different parts of the Dominion during the year.

French Demobilize.

The French cabinet has authorized the war minister to begin demobilization of the entire class of 1919 on June 25. The decision to demobilize this class was reached upon receipt of a report that the classes of 1920 and 1921 had been trained adequately.

Not Even a Comber.

A man sat in a fashionable coiffeur's shop with his little daughter while his wife was having a marcel wave put in her hair. Stroking her father's gleaming head, the child suddenly piped:

"No waves for you, Daddy. You're all beach."

Dairies Are Profitable

Dairy Production the Most Profitable of All Farming Ventures.

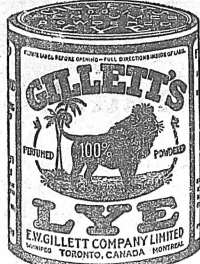

Admitting that the dairy farmer had suffered most severely of all agriculturists by the present decline in the price of his products, Professor A. L. Leitch, of the Ontario Agricultural College, Guelph, addressing 300 members of the Southern Counties Ayrshire Breeders' Club at their annual picnic, declared that dairy production was the most profitable of all farming ventures. Professor Leitch advised against dairy men giving up dairying and going into fruit farming, even though butter had declined from 60 cents to less than 25 cents in six weeks.

He Might.

"Look at that foolish Mr. Baker out on a day like this without an umbrella. Is he crazy?"
"I'm afraid he is. Let's hurry on. I don't want to meet him."
"Why not?"
"He may recognize this umbrella. It's his."

The patriotic man is loyal to his country and to the community in which he lives. If he is consistent he will give first preference to Canadian-made goods when making purchases. He will also stand loyally by his local dealer.

There are some widows who will not flirt—but they are usually deaf and dumb.
When a woman doesn't know her own mind it is time she sought an introduction.

World Happenings Briefly Told

Opening prices of California wine grapes this year have been set at \$50 to \$90 a ton, compared with \$40 and \$50 in pre-war prohibition days.

Miss Sadie Mossell, a young negro woman, received the degree of Doctor of Philosophy at the University of Pennsylvania, the first negro woman in the U.S. to be so honored.

During a thunderstorm at Gibraltar recently a shower of frogs fell on the North Front. Thousands of these small hopping creatures were to be seen in the hedges and aroused much curiosity.

R. M. Maxwell, president of the G.W.V.A. has definitely announced the postponement of the annual convention of the G.W.V.A. until the fall. The convention was to have been held at Port Arthur commencing July 4.

Canada's export trade with the Argentine republic shows great expansion, according to the weekly bulletin of the Department of Trade and Commerce. Since the year 1913 it has quadrupled and now stands at approximately \$8,000,000 per annum.

Quebec City has been chosen by the Catholic Hierarchy of North America for the holding of the Eucharistic congress in 1922. This announcement, which was issued by Cardinal Bégin, has been communicated to all the churches of the diocese of Quebec.

An inspection of the proposed route of the St. Lawrence River Deep Waterways System from Montreal to Lake Ontario, will shortly be made by members of both the Canadian and United States Governments and by prominent manufacturers and merchants of both countries.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

Grading of Dairy Products

The Proposed Grading Regulations Apply to Export Only.

A bill to standardize the grading of dairy products has been introduced in the House of Commons. Replying to questions, Dr. Tolmie said the proposed grading regulations would apply to export only. The bill had been introduced, he added, estimated that it would take a year for the campaign of education necessary before the system could go into operation.

A Friend To the Aged!

When men and women get past middle life, their energy and activity, in many instances, begin to decline, and their general vitality is on the wane.

The heart action becomes weak and uncertain and the nerves more or less unsteady.

Little sicknesses and ailments seem harder to shake off than formerly, and here and there evidences of a breakdown begin to appear.

Those who wish to maintain their health and vigor and retain their energy unimpaired should use Milburn's Heart and Nerve Pills.

They make the heart beat strong and regular, brace up and invigorate the nervous system, improve the memory, and impart a sense of buoyancy to the entire system.

Mrs. James Perry, Retlaw, Alta., writes: "Some months ago I was not feeling well, my heart bothered me quite a lot, and my whole system seemed out of order. I sent and got two boxes of your pills. I took them a few days and my whole change there was in me, as when I had taken the two boxes I felt so much better I quit them. Now I take them at intervals, and am fine having 72 years of age."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The Search For Oil

Imperial Oil Co. Spends Huge Sum In Drilling For Oil.

According to A. M. McQueen, of the Imperial Oil Company, his company has expended to date more than two million dollars in making preparations, bringing in machinery and well drilling crews, and organizing gangs of drillers who are putting down holes from the international boundary north, almost to the Arctic Ocean. In addition to this, the Imperial Oil Company has erected its own machine shop in Calgary, and is doing all repair work on its drilling outfits used in Alberta and Saskatchewan.

Corns Between the Toes

Painlessly Removed

A real, sure, dependable remedy that has been lifting out corns for the past fifty years will surely lift yours out. Putnam's Corn Extractor is the old reliable corn remedy—it stands the test of time and never fails, 25c every where.

Many Settlers Arriving

Seventy-Five Families Take Up Land in the Lloydminster District This Season.

The flow of newcomers which the spring ushered in for the Lloydminster district is continuing unabated, and to date some seventy-five families have arrived and acquired land. Two or three times this number is expected before the end of the farming season. In addition to the marketing of five thousand head of cattle, two thousand hogs, and eight hundred sheep, more than two million bushels of grain were shipped from this district last year. An increase of fifty per cent. in the wheat yield from the increased acreage is expected this year.

Cheapest of All Oils—Considering

the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada and every country and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Plan Your Vacation Trip

Special Summer Tourist Fares to the Pacific Coast.

Special Summer Tourist tickets to Vancouver, Victoria, Seattle and other Pacific Coast points are now on sale daily by the Canadian Pacific Rail. These tickets will bear a final return limit until October 31st, and permit stopovers en route, which gives travellers an opportunity of visiting some of the beautiful resorts in the Rockies, such as Banff, Lake Louise and Glacier, where the Company maintain splendid resort hotels. These tickets are optional with the main line or Arrow Lakes route in one or both directions without extra charge. No expensive side trips necessary.

In addition to the "Trans-Canada Limited" exclusive sleeping car train, a choice of two other daily trains is offered, and as all are equipped with open-top observation cars through the mountains an excellent view of the magnificent scenery may be had. Any Agent of the Canadian Pacific will be pleased to give further particulars and make the necessary arrangements for the trip.

Canned Danger

No Chances Should Be Taken With Canned Foods.

In February of this year a woman in Seattle died from eating three small tins of canned beans. She knew that the beans showed signs of spoilage, but she "tasted them" with fatal results. Referring to this case, the United States Public Health Service says that it is dangerous to eat any canned food that shows "the slightest unnatural odor, unnatural color, smelling of the container, signs of gas or any evidence of decomposition whatever." Such food may contain the bacilli of "botulism," which engender one of the most dangerous of known organic poisons.

Value of Canadian Fisheries.

The fisheries producing of Canada for the year 1920 reached a value of \$49,321,217, according to a return just issued by the Dominion Bureau of Statistics. British Columbia's fishing industry accounted for \$44,300,000 of the total and Nova Scotia for \$12,700,000.

Patronize your local merchant and thereby help to build up your home town and community.

Bacon is more than twice as valuable as rump steak from the nutritional point of view.

Mindard's Liniment for sale every where.

EVERY WOMAN IN POOR HEALTH

Has an awful struggle. Lots to do, all kinds of worry, poor appetite, headaches, weakness. Her one desire is for more strength and better health. What sickly worn out women need is a cleaning, blood purifying remedy like Dr. Hamilton's Pills. This wonderful medicine cleans out the wastes from the system, regulates the bowels, helps the blood. To look your best, to feel fit and fine all day, to be free from lassitude and headache, use Dr. Hamilton's Pills regularly. 25c at all dealers or The Cartier-Hozone Co., Montreal.

Swede Prince Breaks Records. All hitherto hunting and trapping records have been smashed by Prince William, son of the King of Sweden. Press agents credit the Prince with trapping single-handed 24 gorillas, 14 lions, and many other animals, which he is bringing back from the interior of Africa to present to the Stockholm Museum.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Radium For Toronto.

Toronto's General Hospital has bought 150 milligrams of radium from the Radium Chemical Co. of Pittsburgh, the largest amount owned in Canada by any institution. It is the maximum amount required for treatment of any cases. Heretofore the hospital has not owned any of this precious substance which will now be used in treatment of cancer cases.

Yarmouth, N.S., March 24, 1921. Mr. Joseph LeBlanc, Secretary of the Athletic Association, who were the Champions for 1920 of the South Shore Hockey and Western Nova Scotia Base Ball, states that during the summer the boys used MINARD'S LINIMENT with very beneficial results, for sore muscles, bruises and sprains. It is considered by the players the best white liniment on the market. Every team should be supplied with this celebrated remedy.

(Signed) JOSEPH LeBLANC, Sec'y, Y. A. A.

A man who is in politics for the good of the people usually considers his family the people.

There are nearly 50 colleges for men and women and 200 for women alone in the United States.

Going Up

She.—You used to say that Mary was such a sweet, sensitive little girl. He.—Well, she soon got over that; you might say that she became expensive.—Pitt Panther.

Our slogan for the coming year should be, "Buy at Home." Add to your own and your neighbor's prosperity by keeping the money circulating in our own district.

DO ALL MY HOUSE WORK

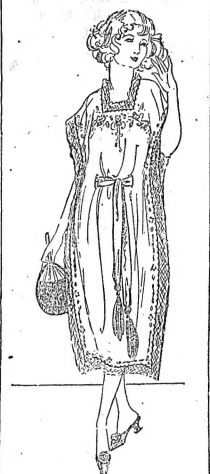

Before I took Lydia E. Pinkham's Vegetable Compound I could hardly get about.

Cobourg, Ont.—"For many years I have had trouble with my nerves and have been in a general run down condition for some time. I could not do my work half of the time because of the trouble with my monthly sickness. I was told of Lydia E. Pinkham's Vegetable Compound by friends and advised to try it. It has done me good, and I strongly recommend it. Since I have taken it I have been able to do all my own work, and I also know friends who have found it good. You can use these facts as a testimonial."—Mrs. ELLEN FLATERS, Box 761, Cobourg, Ont.

Why will women continue to suffer so long as there is a general run down condition when they can find health in Lydia E. Pinkham's Vegetable Compound? For forty years this good old fashioned root and herb remedy, which contains no narcotics or harmful drugs, has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

A Negligee Of Coral Handkerchief Linen

By Marie Belmont.

Cool and inviting is this dainty negligee for summer days. It is fashioned from coral handkerchief linen, although you might develop it in any other shade you desire. If you preferred you might even use a pastel shade of satin or combine two shades of chiffon. It is cut all in one piece and an oblong piece is removed so that the negligee may be slipped over the head. This is outlined with coral embroidery. The sides are similarly adorned. They are fastened together under the embroidery to a point just beyond the waistline. About the shoulder the linen falls in pleasing lines. The satin sash and net finish add to the beauty of this model.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

Where World Gets Lumber

Canadian Vessel Clears Vancouver With Over Five Million Feet of Lumber for Japan.

The biggest cargo of lumber that ever sailed from the port of Vancouver left recently on the Canadian Government steamer, Canadian Highlander. She had aboard \$1,000,000 feet of ties and lumber for Kobe, Taku Bar and Nuchwang, Japan. There have been many three and four million foot cargoes sent from Vancouver in the past few years, and the Canadian Robert Dollar Company's big steamer, Robert Dollar, sailed recently from Puget Sound with 6,000,000 feet, but only 3,200,000 of this was loaded at Vancouver. One of the Coghlan steamers, operated by that company, took 4,800,000 feet last year, and that was the record until the Canadian Highlander's cargo.

Worms cause fretfulness and rob the infant of sleep, the healthy south-eater. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Butter Output Increased.

The province of Saskatchewan has doubled the output of dairy butter during the past year. The total output for the first five months of 1921 was 671,174 pounds in comparison with 340,268 pounds for the same period in 1920, an increase of 331,906 pounds.

A temperance society was active in Wisconsin before the first brewery was built in Milwaukee.

And many a man's bravery is due to his knowledge of the fact that the other fellow is a coward.

Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it to-day and know for yourself.

A silent man is always worth listening to. The less advice a man hands out the more listeners he will have.

Fortune awaits the genius who can invent a drum that can be heard only by the small boy who beats it.

If half the average man's prayers were answered it would add to his troubles.

Mindard's Liniment for Burns, etc.

Fine Ripe Tomatoes & Best Spices

CLARK'S TOMATO KETCHUP

Just a dash adds zip to the stew or fish, etc. The well spiced and seasoned fine ripe tomatoes are a wholesome and tasty relish. Made from Canadian Produce and sold everywhere in Canada.

6-6-21

You will enjoy the flavor the reason is inside the package.

The Louisville Company Ltd.

Northern Light Railway.

The first sod on the proposed Northern Light Railway will be turned soon at Swastika, Ont., from which point construction will commence both east and west. The proposed line is 103 miles in length and will penetrate the newly discovered mineral fields in Northern Ontario. This line will also connect with the Temiskaming and Northern Ontario Railway at Elk Lake.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. P. J. Chesley & Co., Toledo, Ohio.

Balfouria, a small agricultural colony in Palestine, is named after the Rt. Hon. A. J. Balfour.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

The American bale of cotton is 550 lbs.; the Egyptian, 700 lbs.; and the West African, 400 lbs.

Cook's Cotton Root Compound.

A safe, reliable, regulating medicine. Sold in three sizes. Size of strength—No. 1, 211 Pills, 25c; No. 2, 43 Pills, 10c; No. 3, 85 Pills, 20c. Sold by all druggists, or sent by mail on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Solely Wholesale.)

ASPIRIN

Only "Bayer" is Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Then you will be following the directions and dosage worked out by physicians during twenty-one years and proved safe by millions. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monaceticacidester of Salicylicacid.

ROAD RUNNING NORTH OF CHINOOK CONSIDERED TRUNK ROAD BY COUNCIL OF SOUNDING CREEK

Council convened at 11 a.m. All councillors present.

On the reading of the minutes, Mr. Coad objected that Mr. Fraser and not he, was the mover of the resolution dealing with raising the assessment. On motion of Mr. Cowin, the minutes were adopted with this correction.

Mr. Cowin moved and it was carried, that a new eight foot leaning wheel grader be purchased. It was also decided on Mr. Proctor's motion, that two additional fresnos and some extra shoes and runners be purchased from the Western Corrugated Culvert Co.

The following resolution was then passed on motion of Mr. Cameron: That the road running north and south through Youngstown and the road running north from Chinook, be considered trunk roads, to be maintained by special vote of the council; that such maintenance be not chargeable to any one division, and that the secretary be instructed to draft a bylaw for consideration at the next meeting of the council embodying the principles of this resolution.

A large delegation then waited on the council for the purpose of protesting against the manner in which the assessment increase had been apportioned.

After a rather prolonged discussion, it was decided on motion of Mr. Fraser, that the offending resolution be rescinded, and that the assessment be continued on the same basis as last year with the exception that lands assessed at \$3,000 be lowered to \$2,800, and that the Supplementary Revenue rate be raised sufficiently to meet the amount required by the provincial government.

It was further decided that the assessment on the west half of 7-29-8 be reduced to \$2,600 per quarter; and that the secretary be instructed to visit the N.W. 29-30-9 and the east half 6-29-8 and ascertain whether they are at present assessed higher than adjoining land of similar quality.

On motion of Mr. Coad, the Reeve and Mr. Cowin were appointed a committee to look after the expenditure of the government grants.

On motion of Mr. Coad it was decided that the following bills be paid:

Pay sheets—Div. No. 1, \$667.75; No. 2, \$249.00; No. 3, \$95.00; No. 4, \$93.20; No. 5, \$363.50; No. 6, \$92.58; Western Corrugated Culvert Co., road machinery, \$295.36; U.F.A., repairs, \$68.40; Imperial Lumber Yards, repairs, \$245; Mrs. Averill, disinfecting, \$25.00; Mussels, Limited, grader repairs, \$181.62; express, \$23.22; L. M. Colpitts, salary, \$125.00; weed inspecting, \$14.50; S. Beare, stationery, \$9.45; Anderson pound, \$69.48; sign, Div. 2, \$2.00; telephone bill, \$8.50; W. C. Auld, 3 months light, \$5.25; Young quarantine accounts, coal \$19.00, draying \$6.25.

On motion of Mr. Farrow, the meeting was adjourned to meet again on Saturday, July 9th.

Stewart Administration

Promises AND Performs

VERY little serious criticism has ever been levelled at the Stewart administration. This is because, in accordance with the eternal principles of Liberalism, it has dealt fairly and judiciously by the people. It has given uniformly good government of a constructive kind, unhampered by considerations of political expediency, and always with the view of public betterment. It has stood for the square deal for everybody in everything. Its record has withstood successfully and with flying colors the acid test of the keenest possible public criticism.

ALBERTA'S UPWARD PROGRESS

No greater tribute to the Alberta government could be paid than that offered by Mrs. H. M. Edwards, of Okotoks, president of the provincial council of women, who, in the preface to the first and second editions of her book on "The legal status of women of Alberta," says that "the women of Alberta are more favored in regard to legal status than those of any other province in Canada." Such tribute might justly be applied to all classes in the province, for the legislative record of Alberta's Liberal governments has been one of constantly upward progress, many of the enactments placed on the statute books having been adopted by other progressive governments of Canada and elsewhere.

FOR RURAL DISTRICTS

Although the needs of urban communities have been well looked after, the legislation enacted for the special benefit of the rural parts of the province is of striking importance. The appropriation this year for roads, bridges, and ferries is over two and one-quarter million dollars, making a total appropriation for that purpose in five years six and one-quarter million dollars. The province has been covered by a network of telephone lines, so that now even the most remote districts are in almost instant touch with populated centres. When unfavorable seasons were experienced in certain portions of the province, the government did not hesitate, but paid out nearly one and one-quarter million dollars for seed grain, feed, and other relief. The

THE STEWART GOVERNMENT today stands behind an imposing record of legislation, created during the last fifteen years, that has truly met the needs of all classes of people in the province. The opening up of the great north country; the provincial guarantee of irrigation bonds; the guarantee of the bonds of drainage districts; the strong, systematic and successful effort to obtain water markets for Alberta coal; legislation along practical lines directly affecting labor, including the workmen's compensation act; the gigantic strides in health legislation—all these stand as monuments to the progressive policy of the government, and prove that, as the result of the liberal regime in this province:

Alberta Has the Most Beneficent and Far-Reaching Legislation of any Province in Canada

THE PROVINCE OF ALBERTA OFFERS THE FOLLOWING INVESTMENTS

10-YEAR
6 per cent. Gold Bonds
Dated May 1, 1921; Maturing May 1, 1931.
Price \$98.16
and accrued interest from May 1, 1921
YIELD 6.25 per cent.
Denominations: \$100, \$500, \$1,000

15-YEAR
6 per cent. Gold Bonds
Dated April 1, 1921; Maturing April 1, 1936
Price \$97.59
and accrued interest from April 1, 1921
YIELD 6.25 per cent.
Denominations: \$500, \$1,000

Province Of Alberta Co-operative Credit Societies

The Provincial Government has provided legislation designed to encourage the co-operation of farmers by adequate credit, on a long term basis, lower interest rates, cash prices for purchases, saving of time and labour, and an improved community spirit.

Increased Farm Credit depends upon:

- (1) Greater reliability of loans.
- (2) Certainty of repayment.
- (3) Adequate powers of security.

The Alberta Co-operative Credit Act, in its amended form, grants exceptional powers in the matter of taking necessary security, and repayment can be safely provided for.

Organization of a Society requires:—
1. Fifteen signatures to petition to incorporate.

11. Thirty members in good standing to start operations.

111. Each member to subscribe for \$100 stock on which he pays twenty per cent, in cash and twenty per cent, each year thereafter.

IV. Affairs controlled by Board of Directors.

V. Limit of liability.
Guarantees of Municipal District and Government are given in accordance with terms of Act.

Price vs. Value

PRICE is one thing.
VALUE is another.
IT is not what you pay for something
So much as what you GET that determines your satisfaction.
Take your hardware for example.
Poor hardware can be sold at a low price
Good reliable hardware commands a higher price
We handle Good reliable hardware and guarantee you our satisfaction. The appeal of High Value is lasting.

ROAD RUNNING NORTH OF CHINOOK CONSID- ERED TRUNK ROAD BY COUNCIL OF SOUNDING CREEK

Council convened at 11 a.m. All councillors present.

On the reading of the minutes, Mr. Coad objected that Mr. Fraser and not he, was the mover of the resolution dealing with raising the assessment. On motion of Mr. Cowin, the minutes were adopted with this correction.

Mr. Cowin moved and it was carried, that a new eight foot leaning wheel grader be purchased. It was also decided on Mr. Proctor's motion, that two additional fresnos and some extra shoes and runners be purchased from the Western Corrugated Culvert Co.

The following resolution was then passed on motion of Mr. Cameron: That the road running north and south through Youngstown and the road running north from Chinook, be considered trunk roads, to be maintained by special vote of the council; that such maintenance be not chargeable to any one division, and that the secretary be instructed to draft a bylaw for consideration at the next meeting of the council embodying the principles of this resolution.

A large delegation then waited on the council for the purpose of protesting against the manner in which the assessment increase had been appointed.

After a rather prolonged discussion, it was decided on motion of Mr. Fraser, that the offending resolution be rescinded, and that the assessment be continued on the same basis as last year with the exception that lands assessed at \$3.00 be lowered to \$2.80, and that the Supplementary Revenue rate be raised sufficiently to meet the amount required by the provincial government.

It was further decided that the assessment on the west half of 7-29-8 be reduced to \$2,000 per quarter; and that the secretary be instructed to visit the N.W. 29-30-9 and the east half 6-29-8 and ascertain whether they are at present assessed higher than adjoining land of similar quality. On motion of Mr. Coad, the Reeve and Mr. Cowin were appointed a committee to look after the expenditure of the government grants.

On motion of Mr. Coad it was decided that the following bills be paid:

Pay sheets—Div. No. 1, \$663.75; No. 2, \$249.00; No. 3, \$95.00; No. 4, \$93.20; No. 5, \$363.50; No. 6, \$92.58; Western Corrugated Culvert Co., road machinery, \$295.36; U.F.A., repairs, \$68.40; Imperial Lumber Yards, repairs, \$24.50; Mrs. Averill, disinfecting, \$25.00; Mussels, Limited, grader repairs, \$181.62; express, \$23.22; L. M. Colpitts, salary, \$125.00; weed inspecting, \$14.50; S. Beare, stationery, \$9.45; Anderson pound, \$69.48; sign, Div. 2, \$2.00; telephone bill, \$8.50; W. C. Auld, 3 months light, \$5.25; Young quarantine accounts, coal \$19.00, draying \$6.25.

On motion of Mr. Farrow, the meeting was adjourned to meet again on Saturday, July 9th.

phenson, Estella Vaughn, Dorothy Smith, Wilda Gray, Mamie Reynolds.

English Literature

Emmie Stephenson, Dorothy Smith, Vera Younggren, Estella Vaughn, Robert Hamon, Wilda Gray, Mamie Reynolds, Annie Alton.

Physical Science

Wilda Gray, Mamie Reynolds, Emmie Stephenson, Robert Hamon, Vera Younggren, Dorothy Smith, Estella Vaughn, Annie Alton.

Stewart Administration

Promises AND Performs

VERY little serious criticism has ever been levelled at the Stewart administration. This is because, in accordance with the eternal principles of Liberalism, it has dealt fairly and justly by the people. It has given uniformly good government of a constructive kind, unhampered by considerations of political expediency, and always with the view of public betterment. It has stood for the square deal for everybody in everything. Its record has withstood successfully and with flying colors the acid test of the keenest possible public criticism.

ALBERTA'S UPWARD PROGRESS

No greater tribute to the Alberta government could be paid than that offered by Mrs. H. M. Edwards, of McLeod, president of the provincial council of women, who, in the preface to the first and second editions of her book on "The legal status of women of Alberta," says that "the women of Alberta are more favored in regard to legal status than are those of any other province in Canada." Such tribute might justly be applied to all classes in the province, for the legislative record of Alberta's Liberal governments has been one of constantly upward progress, many of the constructive measures placed on the statute books having been adopted by other progressive governments of Canada and elsewhere.

FOR RURAL DISTRICTS

Although the needs of urban communities have been well looked after, the legislation enacted for the special benefit of the rural parts of the province is of striking importance. The appropriation this year for roads, bridges, and ferries is over two and one-quarter million dollars, making a total appropriation for that purpose in five years six and one-quarter million dollars. The province has been covered by a network of telephone lines, so that now even the most remote districts are in almost instant touch with populated centres. When unfavorable seasons were experienced in certain portions of the province, the government did not hesitate but paid out nearly one and one-quarter million dollars for seed grain, feed, and other relief. The

"Cow Bill" has been wonderfully successful in enabling farmers in the newer districts to secure cattle under government loans. Farmers are protected under another act from unscrupulous machinery and other contracts. A great deal of other and similar legislation might be mentioned. The government in all its dealings has recognized that the future development of the province rests largely with the agricultural, live stock, and dairy interests, and has endeavored to encourage them to the full extent of its power.

IN INTERESTS OF WOMEN

Alberta women are especially favored. Alberta was the first province in Canada to grant equal provincial and municipal suffrage. A mother has equal rights with the father in their children. Married women have full control of their own property. Women have a special interest in the "Exemption from Seizures Ordinance," which protects the family home from seizure under execution. A widow's interest in her husband's estate, despite provisions in a will to the contrary, is also protected. Other legislation has been enacted for women. What more could the government have done for them?

HELPING RURAL SCHOOLS

The educational facilities in Alberta are on a high plane. In order to promote the efficiency and encourage the permanence of rural school teachers, the government pays one-third of the cost of building and furnishing the teachers' home. Consolidated schools, where they are desired, are aided by government grants. Where consolidation is impossible or is not desired, three times the usual grant is made to two-room schools, so that educational facilities may be largely increased. The educational opportunity of the child in the country is now more nearly equal to that of the child in the town or city, by reason of special legislation providing for high school education in the rural districts. The government believes in providing adequate educational facilities for even the most remote districts, so that the children of settlers miles from a railroad or settlements may have a fair start in life.

THE STEWART GOVERNMENT today stands behind an imposing record of legislation, created during the last fifteen years, that has truly met the needs of all classes of people in the province. The opening up of the great north country; the provincial guarantee of irrigation bonds; the guarantee of the bonds of drainage districts; the strong, systematic and successful effort to obtain water markets for Alberta coal; legislation along practical lines directly affecting labor, including the workmen's compensation act; the gigantic strikes in health legislation—all these stand as monuments to the progressive policy of the government, and prove that, as the result of the Liberal regime in this province
